

Hi Everyone--

I've had some feedback that some were roaming around the Retiree Health Plan Advisory Board webpage not finding the information concerning DRB proposed benefit changes, so here's a road map:

Click on this link:

<http://doa.alaska.gov/drb/alaskacare/retiree/advisory.html>

You are now on the Advisory Board webpage.

This page is divided into past meetings and upcoming meetings. I would suggest 'refreshing' this page each time you come to it. Refreshing will show you the most recent posts by DRB.

To refresh the page look at the white band at the top left of the Advisory Board page. There you will find a 3/4 quarter, clockwise circle with an arrow on the end--this is the refresh button--click it.

Meeting materials are not yet posted for upcoming meetings.

All of the 'Past Meetings' have bullet points--click on the bullet point for the meeting you want to see information about called 'Meeting Materials' and this will take you to a meeting agenda where the benefit changes that will be discussed are listed.

Scroll down below the Agenda to find the summary/discussion of the proposed plan design changes. There is also an audio link if you want to listen to the meeting.

Please let me know if this helps!

Sharon
